A General History of the Burr Family, With a Genealogical Record from 1193 To 1891 by Charles Burr Todd, first published in 1891, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

This edited collection of essays on the conceptual, political and philosophical importance of stillness is positioned within a world that has increasingly come to be understood through the theoretical and conceptual lens of movement. With contributions from leading scholars in the field, the diversity of this collection illuminates the multiplicity of ontological and epistemological registers through which stillness moves: from human geography to media studies, cultural theory to fine arts. With the help of luminaries such as Deleuze, Bergson, Barthes and Beckett, this book interweaves cutting-edge theoretical insight with empirical illustrations which examine and traverse a multitude of practices, spaces and events. In an era where stasis, slowness and passivity are often held to be detrimental, this collection puts forward a new set of political and ethical concerns which help us to come to terms with, understand, and account for (im)mobile life. *Stillness in a Mobile World* is an essential source of reference for both undergraduate and post-graduate students working within disciplines such as cultural studies, sociology, mobility studies, and human geography.
