For intermediate and financial accounting courses at the MBA and undergraduate level, or a supplement to financial statement analysis texts. This collection of financial accounting cases is designed to help students become financial statement users. Each case utilizes financial statement information (balance sheet, income statement, statement of cash flow and/or footnotes) and a number of topical questions. Students use the financial statement information to infer and interpret the economic events underlying the numbers. Related articles taken from business publications accompany some cases, and information from the articles is incorporated into the case question material. Also available the Pearson Custom Case Program.

For the first time, Revsine's Financial Reporting & Analysis will feature Connect, the premier digital teaching and learning tool that allows instructors to assign and assess course material. Financial Reporting & Analysis (FR&A) by Revsine/Collins/Johnson/Mittelstaedt emphasizes both the process of financial reporting and the analysis of financial statements. This book employs a true "user" perspective by discussing the contracting and decision implications of accounting, helping readers understand why accounting choices are so important and to whom they matter. Revsine, Collins, Johnson, and Mittelstaedt train their readers to be good financial detectives by enabling them to read, use, and interpret the statements. Most importantly, FR&A helps students understand how and why managers can utilize the flexibility in GAAP to adapt the numbers for their own purposes.
