While the efficiency and sustainability offensive is in full swing in most sectors of the economy, in the construction sector it is still in its very beginnings – economically as well as ecologically. However, politicians and policymakers at the global, European, and national levels have begun to address this deficit and are seeking to correct it with legal requirements and laws like EnEV, building certifications, and competitions. Following the proven model of earlier manuals in the series, the Energy Manual presents a comprehensive look at the constructional parameters of energy efficiency and sustainability. It offers an advance look at the legal regulations being planned by the EU, and – as a tool ready for immediate use by architects, engineers, and designers in their daily work – it points the way toward the efficient and sustainable construction and operation of buildings. With its focus on the entire lifecycle of a building, it provides an integrated perspective – a necessary prerequisite for sustainable economic management.

The 1st edition of Back Office and Beyond became the benchmark source and reference for 'best practice' in back office procedures. Better attention to back office procedures would have prevented disasters at Barings, Sumitomo, and other causes celebres - not to mention the latest debacle at Allfirst in the USA. This ground breaking book is an essential read for anyone wanting his/her organisation to thrive and survive, containing particularly practical guidance and advice and now extends its cover to the implications of CAD II. There is a compelling requirement for aspects of risk to be situated in the Back/Middle Office areas. Indeed, they should be involved at first base: for if data is not captured accurately, there is little chance of the institution's risk profile being accurate. With so many banks offering similar products and pricing, accurate and speedy settlements have become a competition issue not to be ignored. As an additional reason for purchase, this edition now offers a guide to Equities' settlement also.
