especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences. The comprehensive Learner's Book:

- explains key concepts and scientific terms in accessible language and provides learners with a glossary of scientific terminology to aid understanding.
- provides for frequent consolidation in the Summative assessments at the end of each module
- includes case studies that link science to real-life situations and present balanced views on sensitive issues
- includes 'Did you know?' features providing interesting additional information
- highlights examples, laws and formulae in boxes for easy reference.

teaching experience. • Suggested videos at the end of each chapter for a Hybrid Learning Experience.

This text blends traditional introductory physics topics with an emphasis on human applications and an expanded coverage of modern physics topics, such as the existence of atoms and the conversion of mass into energy. Topical coverage is combined with the author's lively, conversational writing style, innovative features, the direct and clear manner of presentation, and the emphasis on problem solving and practical applications.
