Suddenly embroiled in a grand jury investigation of Mob-related activities on Wall Street, and threatened by some very serious men, he is thrust into witness protection with his young autistic son. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

Shamus Award-winning author Michael Sears brings Queens, New York, to literary life in this crime series debut featuring a somewhat seedy lawyer with a heart of gold (or at least gold plate). Queens, New York--the most diverse place on earth. Native son Ted Molloy knows these streets like the back of his hand. Ted was once a high-powered Manhattan lawyer, but after a spectacular fall from grace, he has found himself back on his home turf, scraping by as a foreclosure profiteer. It's a grubby business, but a safe one--until Ted's case sourcer, a mostly reformed small-time conman named Richie Rubiano, turns up murdered shortly after tipping Ted off to an improbably lucrative lead. With Richie's widow on his back and shadows of the past popping up at every turn, Ted realizes he's gotten himself embroiled in a murder investigation. His quest for the truth will take him all over Queens, plunging him into the machinations of greedy developers, mobsters, enraged activists, old litigator foes and old-school New York City operators.

Losing everything in a disastrous stock market downturn, trailer park youth-turned-Wall Street analyst Evan jumps at a chance to redeem his fortunes with a mysterious firm only to be forced to consider committing murder to prevent a second downfall. 50,000 first printing

Fiona Stafford offers intimate, detailed explorations of seventeen common trees, from ash and apple to pine, oak, cypress, and willow. Stafford discusses practical uses of wood past and present, tree diseases and environmental threats, and trees' potential contributions toward slowing global climate change

Ex-Wall Street trader, ex-con, and devoted father to an autistic son, Jason Stafford first appeared in Black Fridays, “ one of the year's finest crime debuts ” (Booklist). Now, in Mortal Bonds, he goes to work for the wealthy family of a financial criminal... William von Becker's multibillion-dollar fund was limited to only the luckiest investors. Or so they thought. After the house of cards collapses and the disgraced von Becker commits suicide in prison, his family asks Jason Stafford to find out where the money is—and who is targeting them with attempted kidnappings. There are plenty of angry suspects to take a look at. But with roughly three billion of von Becker's ill-gotten dollars floating around somewhere, there are other interested parties as well. They're determined. They're powerful. And they're not nearly as polite as the Feds...

In April 2008, Ed Stafford began his attempt to become the first man ever to walk the entire length of the River Amazon. Nearly two and a half years later, he had crossed the whole of South America to reach the mouth of the colossal river. With danger a constant companion - outwitting alligators, jaguars, pit vipers and electric eels, not to mention overcoming the hurdles of injuries and relentless tropical storms - Ed's journey demanded extreme physical and mental strength. Often warned by natives that he would die, Ed even found himself pursued by machete-wielding tribesmen and detained for murder. However, Ed's journey was an adventure with a purpose- to help raise people's awareness of environmental issues. Ed had unprecedented access to indigenous communities and witnessed the devastating effects of deforestation first-hand. His story of disappearing tribes and loss of habitats concerns us all. Ultimately though, Walking the Amazon is an account of a world-first expedition that takes readers on the most daring journey along the world's greatest river and through the most bio-diverse habitat on earth.
