L'eihhr. A society melding their two cultures is a place where Cara and Aelyx could one day make a life together. But with L'eihhr leaders balking at granting even the most basic freedoms, Cara begins to wonder if she could ever be happy on this planet, even with Aelyx by her side. Meanwhile, on Earth, Aelyx, finds himself thrown into a full-scale PR campaign to improve human-L'eihhr relations. Humans don't know that their very survival depends on this alliance: only Aelyx's people have the technology to fix the deadly contamination in the global water supply that human governments are hiding. Yet despite their upper hand, the leaders of his world suddenly seem desperate to get humans on their side, and hardly bat an eye at extremists' multiple attempts on Aelyx's life. The Way clearly needs humans' help...but with what? And what will they ask for in return?

Funny thing, though. Usually what everybody thinks they know-they really don't. Take the folks in Turkey Creek. Oh, everybody knows Maggie Kincaid doesn't speak to her father. They think they know why. But they don't. They know Billy Brayton died twenty-five years back. Too bad nobody told him. Because now he's home. And it's time to right some past wrongs. Time for justice. Country Justice."

years from now it won't make any difference.” “Uh-oh” is more than a momentary reaction to small problems. “Uh-oh” is an attitude—a perspective on the universe. It is a power of an equation that summarizes my view of the conditions of existence: “Uh-huh” + “oh-wow” + “uh-oh” + “oh, God” = “ah-hah!”

Very simply, all the cells in the bodily organism have a special marker in them which the immune system knows are its own but everything else in the body without this special marker is considered a foreign agent, an enemy which the immune system tries to destroy in order to win this war against toxins and continue to thrive. When the immune system senses large amounts of foreign invaders, it triggers an immune response by producing antibodies which go out, fight these invaders (antigens) and try to destroy them

all. When the body's immune system is weak, it gets confused and sometimes attacks its own healthy body cells because it thinks these cells are foreign invading toxic cells so the body's immune system is destroying itself.
