Here's a good one: “The only way I’m going out of BUD/S is with an oxygen mask on my face. There’s no way else.” Exhaustion, drowning, and psychosis are among the impediments that ultimately end a Navy SEAL tryout, but it was a math test that defeated Brad McLeod. It wasn’t even that McLeod was particularly bad at arithmetic.

"The Iranians are going to be in a position where they have to retaliate. I don't see any way around it," McRaven, former head of US Special Operations Command and the Navy SEAL who oversaw the bin Laden raid, said on ABC's "This Week." Iran has already threatened to retaliate for the attack, though it is unclear exactly when or how it may do so.

A highly decorated Navy SEAL shares stories of his years of combat experience in Afghanistan, providing leadership insights that will shift your view of yourself and provoke life-altering change. "We humans make our lives painfully complex." Relationships, which are fundamentally simple, now swim with complexity. The boring simplicity of being physically hard and in shape drowns in a swamp of exciting complex and lazy actions. The pursuit of wealth evolved away from simple work and simple teamwork to a virtual devaluing of hard work into hacks and overindulging actions that have no value. The simple act of learning is now mired in politics and debt. Spiritually, we also are void of meaning to the point where simple prayer or meditation signifies depression and loss of soul. There are five areas in each of your lives that demand simplicity and abhor complexity: Spiritual, Relationship, Wealth, Physical, and Intellectual. To win, you need only do Three Simple Things in each. Success is that simple.

Before there was Max, there was Mike. A true story much like the touching movie, Navy SEAL Dogs explores the incomparable relationship between trainer and military dog. From the author of Team Dog, Trident K9 Warriors gave readers an inside look at the Navy SEAL teams' elite K9 warriors-who they are, how they are trained, and the extreme missions they undertake to save lives. From detecting explosives to eliminating the bad guys, these powerful dogs are also some of the smartest and highest skilled working animals on the planet. Mike Ritland's job is to train them. This special edition re-telling presents the dramatic tale of how Ritland discovered his passion and grew up to become the trainer of the nation's most elite military working dogs. Ritland was a smaller-than-average kid who was often picked-on at school-which led him to spend more time with dogs at a young age. After graduating BUD/S training-the toughest military training in the world-to become a SEAL, he was on combat deployment in Iraq when he saw a military working dog in action and instantly knew he'd found his true calling. Ritland started his own company to train and supply working and protection dogs for the U.S. Government, Department of Defense, and other clients. He also started the Warrior Dog Foundation to help retired Special Operations dogs live long and happy lives after their service. Navy SEAL Dogs is the true story of how Mike Ritland grew from a skinny, bullied child, to a member of our nation's most elite SEAL Teams, to the trainer of the world's most

highly skilled K9 warriors.

New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of Can't Hurt Me, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

In this first book of a new illustrated middle grade series by a #1 New York Times bestselling author, Marc learns to become a Warrior Kid after his uncle Jake, a Navy SEAL, comes to stay for the summer.

THE HEART AND THE FIST shares one man's story of extraordinary leadership and service as both a humanitarian and a warrior. In a life lived at the raw edges of the human experience, Greitens has seen what can be accomplished when compassion and courage come together in meaningful service. As a Rhodes Scholar and Navy SEAL, Greitens worked alongside volunteers who taught art to street children in Bolivia and led US Marines who hunted terrorists in Iraq. He's learned from nuns who fed the destitute in one of Mother Teresa's homes for the dying in India, from aid workers who healed orphaned children in Rwanda, and from Navy SEALs who fought in Afghanistan. He excelled at the hardest military training in the world, and today he works with severely wounded and disabled veterans who are rebuilding their lives as community leaders at home. Greitens offers each of us a new way of thinking about living a meaningful life. We learn that to win any war, even those we wage against ourselves; to create and obtain lasting peace; to save a life; and even, simply to live with purpose requires us—every one of us—to be both good and strong.

In a fast-paced and action-packed narrative, Navy SEAL commander Rorke Denver tackles the questions that have emerged about America's past decade at war—from what makes a hero to why we fight and what it does to us. Heroes are not always the guys who jump on grenades. Sometimes, they are the snipers who decide to hold their fire, the wounded operators who find fresh ways to contribute, or the wives who keep the families together back home. Even a SEAL commander—especially a SEAL commander—knows that. But what's a hero, really? What do we have a right to expect from our heroes? How should we hold them accountable? Amid all the loose talk of heroes, these questions are seldom asked. As a SEAL commander, Rorke Denver is uniquely qualified to answer questions about what makes a hero or a leader, why men kill, how best to serve your country, how battlefield experiences can elevate us, and most important, why we fight and what it does for and to us. And in *Worth Dying For*, Denver shares his personal experiences from the forefront of war today. Denver applies some of his SEAL sense to nine big-picture, news-driven questions of war and peace, in a way that appeals to all sides of the public conversation. By broadening the issues, sharing his insights, and achieving what civilian political leaders have been utterly unable to, Denver eloquently shares answers to America's most burning questions about war, heroism, and what it all means for America's future.

An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, *Extreme Ownership* shows how to apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, *Extreme Ownership* revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.
